**A summary of the main changes are set out below:**

**//Further reconsultation letter received 20th July 2025 with the following additional changes:**

**Further to the recent re-consultation, the BNG Assessment letter has been revised and is submitted under this re-consultation.//**

## Comment

**Sevenoaks Town Council recommended refusal on the following grounds:**

- Overlooking of neighbouring properties both to the North and South, and subsequent loss of amenity and privacy to their inhabitants, contrary to Policy EN2 of the District Council's Allocations and Development Management Plan
- Inappropriate bulk and massing of the site, contrary to Policy EN1 of the District Council's Allocations and Development Management Plan
- The designs are incongruent with the Residential Character Area Assessment including the use of materials, contrary to Policy C4 of the Sevenoaks Town Neighbourhood Plan
- Concerns over the protection of TPO trees within the build zone
- Concerns as to perceived inconsistency of the methodology used to calculate Biodiversity Net Gain
- The ecology and light assessment references the setting as "urban" which the Town Council would contest. This is a country lane and the Town Council therefore considered that the ecological management plan should be produced with the setting corrected, in order for the potential impact of development to be accurately assessed.

## Informative:

**If the District Council is minded to approve the application, the Town Council requested that:**

- A light assessment be undertaken to evaluate impact to the annexe at White Friars and on the Conservation Area and protected species present
- An ecological enhancement and monitoring plan be submitted, which retains and protects trees and hedgerows within and around the development site
- The Tree Officer respond to the new Tree Report submitted on 18th March from Quaife Woodlands and confirm their satisfaction with the tree protective measures proposed, in addition to investigation being undertaken as to existing damage to trees caused by recent construction activities
- The District Council Officers be reminded that the Residential Character Area Assessment was produced not only to protect the character from the streetview, but also all other views as well as amenity of residents. The Town Council considered the design at the sides of the proposed development to cause significant overlooking into the living space and gardens of neighbouring occupied dwellings, which is contrary to the Residential Character Area

## Assessment.

- The proposed plans, of which earlier iterations had been considered and revised by a Design Review Panel, be resubmitted to the Panel due to their having since been amended from the plans that arose from it. This request is supported by Aim C6 of the Sevenoaks Town Neighbourhood Plan which requires a Design Review Panel be utilised for proposals within a sensitive location.

- Comment from Kent Highways be requested, regarding parking provision and any potential impact of parking overspill onto nearby local roads.

Finally, concern was raised as to whether the methodology used for calculating and recalibrating the Biodiversity Net Gain provision was consistent, with request therefore made to Officers for its correct output to be confirmed. Councillors further requested that efforts be made to direct any Biodiversity gain within Sevenoaks Town, if it cannot be delivered on-site or within its vicinity.
